Main areas of application	embroidery stabilizer

### Features

- Self-adhesive embroidery backings fix the fabrics to be embroidered fast and easily, even without framing.
- Stick On Light is a self-adhesive embroidery backing with one side dotted randomly with glue and protected by a removable silicone paper.
- This coating gives Stick On Light a light adhesive power to perfectly fix many kind of fabrics.
- Stick On Light allows the embroidery of small pieces or delicate fabrics, which cannot or should not be framed. Stick On Light is particularly suitable for fabrics with a rough surface. Stick On Light can be torn away very easily after the embroidery process. EZEE Stick On is recommended for very stretchy fabrics and fabrics with an extremely smooth surface,.
- Due to its light adhesive power Stick On Light can be also used as a normal embroidery backing.

### Recommendations for care

Embroidery Backings/Toppings should be removed after the embroidering.

Once the backing is torn away, there will be almost no residue of the backing left. Therefore, the washing and ironing temperature as well as the detergents should be determined according to the fabric embroidered.

Washing, ironing and drying cleaning tests are recommended before starting the production.
